

The background is a vibrant, abstract composition. It features large, organic shapes in shades of teal, maroon, and mustard yellow. These shapes are layered and decorated with various patterns: some have a fine dot pattern, others have wavy lines, and some have a cross-hatch pattern. A horizontal pink line with a wavy underline passes behind the main title. The bottom of the image transitions into a light-colored wooden plank texture.

MULTIPLICATION CHECK

MONDAY 4TH MARCH

WHEN IS THE MTC?

The purpose of the MTC is to determine whether pupils can recall their times tables fluently, which is essential for future success in mathematics. It will help schools to identify pupils who have not yet mastered their times tables, so that additional support can be provided.

In 2024, schools must administer the MTC to all eligible year 4 pupils between Monday 3 June and Friday 14 June.

How will the data from the check be used?

The check will be used in these ways:

- Schools will be able to see individual and school-level results. This will help them to give support to the right individuals and classes.
- Selected users, such as Ofsted, will be able to see school-level results via the Analyse School Performance data (APA) system.
- National results will be reported by the Department of Education (DfE).
- National and local authority results will be reported by the DfE, so schools can benchmark performance. But school level results won't be published in performance tables.

The background of the slide is a collage. On the left, there are two white dice with black pips, one showing a one and the other a two. On the right, there is a fan of playing cards including the 5 of Spades, 5 of Hearts, and 7 of Clubs, along with a silver playing card tin. A dark grey semi-transparent rectangle is centered over the collage, containing the title and a list of game types.
