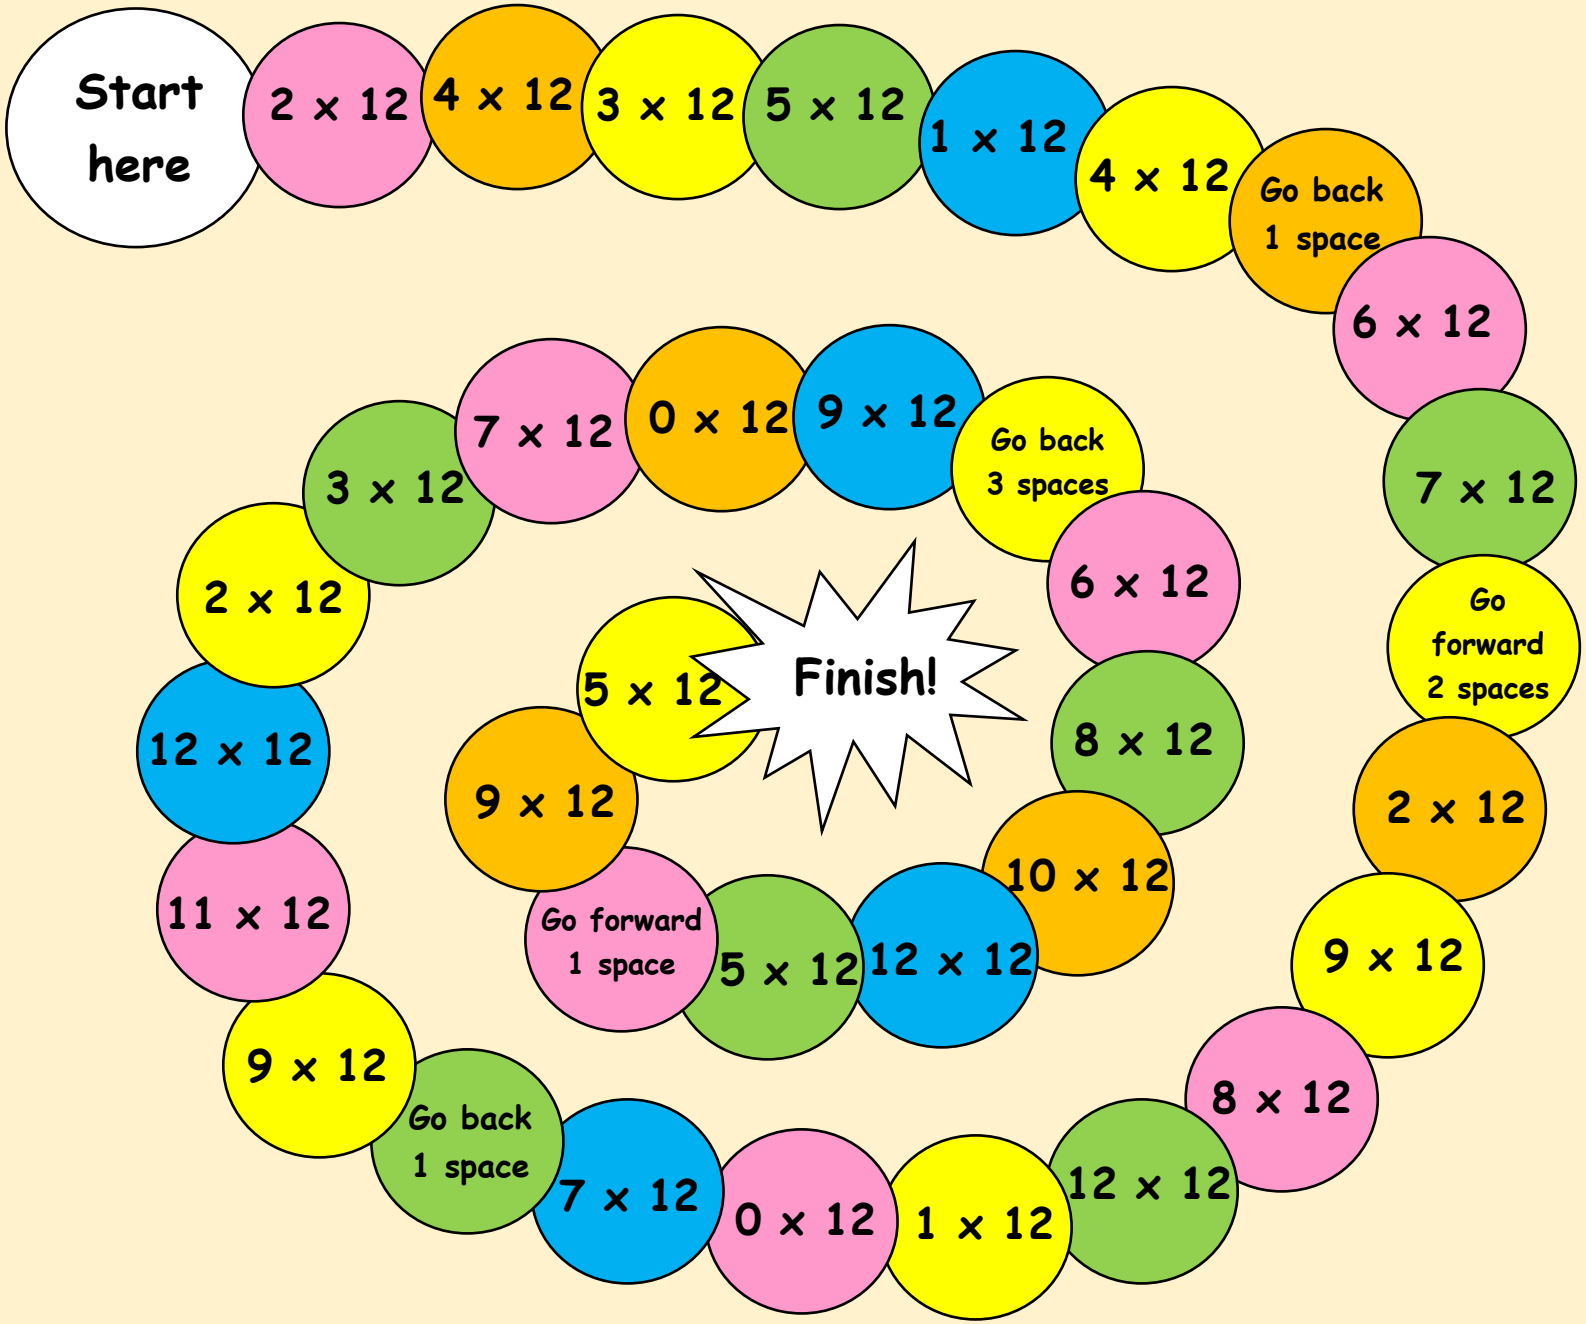
12 Times Tables Game

Resources

You will need: the board game, dice, counters, players.

How to play

Choose your counter and start on the 'Start here' spot. Players take it in turns to roll the dice and answer the question on the spot they land on. First person to get to the finish wins!

Rules


The youngest player rolls first. The dice is passed to the left. If a player gets the answer correct, they stay on their spot. If they get it wrong, they move back two spaces.
