

What will I know by the end of the unit?

That objects are made of **materials**. Materials are chosen for their **properties**.

Materials that some objects are made from:

glass

metal

rock

wood

plastic

What words can I use to describe materials?

absorbent

waterproof

shiny

Vocabulary

absorbent	Material that soaks up liquid easily
glass	A hard transparent (see through) material
hard	A material that is not easily bent, cut or broken; it is not soft.
heavy	Difficult to lift up
light	Easy to lift up
metal	A hard material such as iron, steel, gold or lead
opaque	You cannot see through it
plastic	A material that is light in weight and does not break easily
rock	The hard material that the Earth is made from
rough	Uneven and not smooth
shiny	Things are bright and reflect light
smooth	No roughness, lumps or holes
soft	Not rough or hard
transparent	You can see through it
waterproof	Does not let water pass
wood	Material that comes from trees

runny

solid
