

Vocabulary

Word	Picture	Definition
Amphibian		Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
Mammals		Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
Birds		All birds have a beak, two legs, feathers and wings.
Fish		Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.
Reptiles		All reptiles breathe air. They have scaly skin.
Vertebrate		Animals which have a backbone inside them: birds, fish, mammals, reptiles and amphibians.
Skeleton		Hard bones inside an animal that supports their body.
Organ		Something inside an animal's body which does a specific job: brain, lungs, heart.

Herbivores eat only plants.

Carnivores eat only animals.

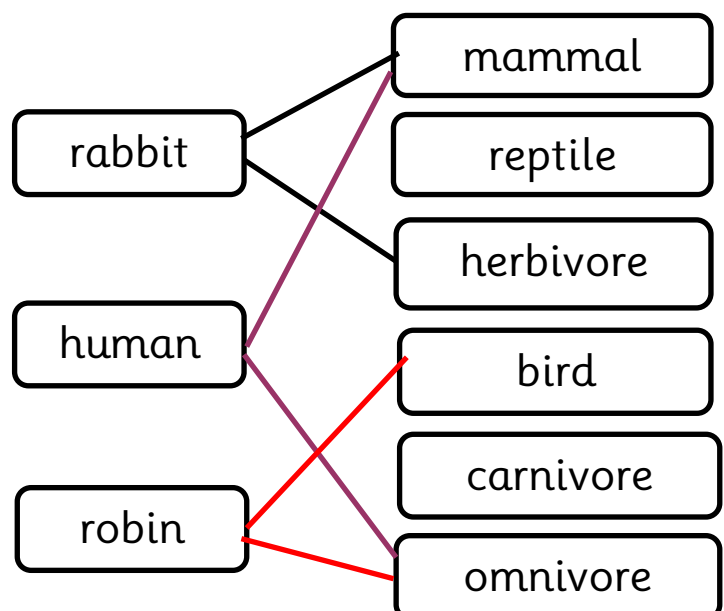

Omnivores eat plants and animals.

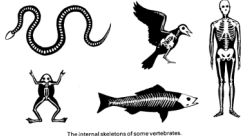

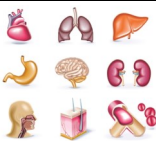

Grizzly bears eat seeds, berries and grass.

They also eat deer, fish and insects.
