HOMEWORK – Year 2 Autumn Term 1

Here is this term's homework grid. You must complete and hand in **at least one** of the tasks **every two weeks.** You can choose which tasks to complete or adapt one. (You might even decide to do all six!) You may choose how to present your finished work – you could bring it in; take a photo or stick it into your project book. I am really looking forward to seeing your amazing work.

As well as these tasks, remember to **read daily** at home to an adult or older sibling and ask them to sign your reading record.

Draw, create or make a barn owl **or** an animal from a hot or cold country. 	Plop is scared of the dark. Can you write a letter to Plop to change his mind about the dark? 	Draw, create or make our world and label the continents and oceans. What is your favourite animal that lives in either a hot or cold country and why? Create a fact file. 	Can you learn your 2, 5 or 10 times tables – or even all three? 	Go around the house and find up to 10 different items. Can you say which material they are made from and explain why it is made from that material? Can you use some of our new scientific vocabulary?
