Year 2 Homework Grid Autumn 2

Here are the homework activities your child can choose from this term. Last term's homework was fantastic so I am looking forward to seeing your creations this term. Your child will also start to bring home 6 spellings for them to learn each week – they will have a test on Friday to check they can spell them. It is also beneficial for them to regularly read out loud to an adult; this helps them improve their fluency and comprehension skills.

Thank you all for your support with homework.

Find out about the different ways that we keep our homes safe from fire today. Your child could produce a safety poster.  	 Create a new exercise to share with your friends or create a new game to play. If you'd like to video a 5-minute PE/fitness activity and send it in, then we will give it a try in school.	 We are learning about the Great Fire of London in History. Encourage your child to draw or paint a picture of the Great Fire of London or to make a collage to depict the Great Fire of London.
You will need a 30 centimetres ruler. 1. Find 6 objects in your house that you can measure with a ruler. 2. Estimate the length of each object before measuring them. 3. Can you record the name of the object, your estimate and the actual measurement of your 6 objects in a table?	Can you create a healthy meal? • You could draw or write about your healthy meal. • You might make a healthy meal for your family and take a photo. • You could design a menu which includes healthy meals.	Christmas is coming!! I would love to decorate our classroom in December with Christmas items you have made. You could make a decoration, a wreath for our classroom door, Christmas bunting, paper snowflakes, draw a picture, design a card. Be as creative as you like! 

Please encourage your child to complete one homework project every 2 weeks. You can choose to complete the tasks in any order or adapt one.
